Arena Services & Supplies

YOUR DASHBOARD & ARENA SUPPLIES PARTNER

Safety Through Innovation

Here at Athletica Sport Systems, we believe in safety through innovation. Our philosophy has seen us become the world leader in the design, engineering, innovation, manufacture, distribution, installation, and service of dasher board systems. Our designs improve player safety, fan experience, and reduce owner liability.

As a preferred rink equipment supplier to the National Hockey League®, the American Hockey League, and USA Hockey, we work closely with the leagues to ensure new product enhancements such as our unique Crystaplex® seamless acrylic shielding system; our patented SoftCap® safety cap rail system; GlassFlex® flexible shielding system; along with CheckFlex® and InFlex™, our flexible board and board facing systems, are aligned with their current mandates and regulations.

Athletica Sport Systems is headquartered in Waterloo, Ontario, where our manufacturing and main distribution facility is located; we have additional sales, service and distribution centers in Minneapolis, Minnesota and Vancouver, British Columbia as well as sales distribution around the world.

When it comes to excellence in sports facilities, no other company comes close to Athletica Sport Systems. Whether it's enhancing the physical safety of players; reducing risk and liability for rink owners; improving ease of conversions; or maximizing the game experience for spectators, we bring it all to the game of hockey.

Our service and installation teams have completed over 3,000 projects; no company in the world builds more dasher board systems than Athletica Sport Systems, and nobody builds them better.

Telescopic Platform Seating	77
Upholstered VIP Seating	77

SERVICE SCHEDULES

It makes good sense, and we can help!

Remember, dasher boards are not a static device. Gates are opened and shut (sometimes slammed) hundreds of times a month; bolts and nuts can loosen; shielding can get chipped and marked up; gates can get out of plumb. And yes, sometimes the guy driving the resurfacer might just give the boards a 'bit of a rub'.

Your dasher boards are one of the most visible and memorable parts of your rink. People take away lasting impressions about the kind of facility you operate in part based on what it looks like, and if your boards look bad - if they look like you don't look after them - then that may end up hurting your reputation and your potential repeat business.

More importantly than that, dasher boards need to be maintained to ensure they operate in a manner that assures the safety of the skaters and hockey players who use it.

Dasherboard Panels	WEEKLY	MONTHLY	SEASONAL
Check torque of floor anchors. Tighten as required.		●	●
Visually inspect plumb of dasher wall. Replumb as required.		●	●
Visually inspect framing for deformation or cracks. Repair or replace as required.		●	●
Check attachment of polyethylene facing, kickplate and caprail to framing. Re-adjust/tighten as required.	●		●
Inspect panel joints (ice side) for facing alignment. Re-adjust/tighten as required.		●	●
Check torque of panel connection bolts. Re-tighten as required.		●	●
Cleaning of polyethylene facing/kickplate.		●	●

Shielding and Supports	WEEKLY	MONTHLY	SEASONAL
Visual inspection of shielding for chips and cracks. Replace as required.	●	●	●
Visual inspection of shielding for proper engagement in its support system. Tighten and reposition as required.	●		●
Visual inspection for proper seating of shielding support base.	●		●
Visual inspection of the secure fastening and physical condition of termination pads.	●		
Cleaning of shielding.		●	●

Maintaining your boards costs a whole lot less than replacing them, so to help you keep them working properly, and lasting a long time, contact us to arrange a service call appointment. Our dasher board technicians and installation supervisors are seasoned, experienced and ready to help you keep your boards looking and working their best all year round. Call today for a no-obligation quote.

And don't forget, we also carry everything you need to keep outdoor rinks in great shape too! Whatever you need, we've got it. From replacement fencing, to fence posts, and all the necessary hardware. Call us for more details.

See below for a recommended maintenance schedule, for more detailed information, consult resources such as ORFA's Guidelines for Arena Dasher Board and Shielding Systems, which you can access from our website: athletica.com

Gates	WEEKLY	MONTHLY	SEASONAL
Inspect gate swing for proper clearance. Adjust as required.	●		●
Inspect any steel hardware for start of corrosion. Clean off rust and spray galvanize as required.		●	
Inspect gate latches for proper operation. Adjust as required.	●		●
Inspect door/panel frame facing alignment (surface side).	●		●
Lubricate gate hinges.		●	●
Lubricate adjustable caster.		●	●
Check torque of hardware fasteners. Re-tighten as required.		●	●
Inspect threshold covers for wear and attachment. Refasten and replace as required.		●	●

Have our team service your arena.

GOAL PACKAGES

CRYSTAPLEX®

Crystaplex® goal frames are used by the NHL, AHL, and IIHF and meet all dimensional standards. Buy the best for your arena. *Sold in pairs.*

Crystaplex® 400 Competitive Package

- 40" red and white goal frames
- 6 mm knotless resin nets
- Bottom pads
- Vertical/back pads
- Nylon Net protectors/skirts
- Upper net tie bar

Game Ready
Unstrung

#102200
#102201

NHL approved net tie bar.

Reinforced center support allows low profile design without compromising strength.

GOAL PACKAGES

Made of heavy duty tubular steel with rounded corners, these durable frames conform to standards and safety rules at all game levels. Lacing twine included. *Sold in pairs.*

Game Ready package includes stringing with netting, pads and net protectors/skirts. All you have to do is drop on the ice.

**Net/Pad Package
with Nylon Nets**

#100232

**Net/Pad Package
with Resin Coated Nets**

#100233

GOAL ACCESSORIES

Regulation Goal Nets

One-piece construction. Fits standard goal frames of 4'H x 6'W. Designed for high use environments. Lacing twine included. *Sold in pairs.*

6mm Resin Coated	40"/44" frame	#102277
6mm Resin Coated	34" frame	#101320

Crystaplex® Goal Frames

Durable tubular steel with rounded corners. Conforms to standards and safety rules of all game levels.

Crystaplex® Red	44"	#100234
Crystaplex® Red/White	40"	#101991
Crystaplex® Red	40"	#102511

Crystaplex® Goal Frame Pads

Heavy duty white tear-resistant nylon covering fits regulation size goal frames. *Sold in pairs.*

A BOTTOM PADS - Grommeted for lace attachment.

34" frame	#101393
40" frame	#102282
44" frame	#102286

B TOP PADS

Standard - With Velcro® attachment	#102285
Premium - Grommeted for lace attachment	#103578

C TOP/CENTER PADS

Standard - With Velcro® attachment	#102289
Premium - Grommeted for lace attachment	#103579

D VERTICAL/BACK PADS - Velcro® attachment.

Reduced diameter	#102281
------------------	---------

GOAL ACCESSORIES

Vinyl Net Protectors

Fits regulation size goal frames with grommets every 4" on center. Lacing twine included. *Sold in pairs.*

Vinyl skirt	44"	#101993
Vinyl skirt	40"	#40.10316

Nylon Net Protectors

Extend the life of nets by minimizing skate cuts. Lacing twine included. *Sold in pairs.*

Nylon skirt	44"	#102278
Nylon skirt	40"	#102283
Nylon skirt	34"	#103577

Pro-style Net Protectors

Special dual layer construction. Base layer is reinforced webbing with grommets and a second layer is 35 oz vinyl; stitched together to create a one-piece net protector. Top layer enhances net appearance and protects lacing from skate damage. Skirt is pleated for an improved fit around the goal radius. Lacing twine included. *Sold in pairs.*

Pro-style	44"	#102284
Pro-style	40"	#102515

Clear Net Protectors

Similar in design to the Pro-Style. Allows for easy visibility. Detachable clear end protectors come with extra set of ends. Lacing twine included. *Sold in pairs.*

Clear end	44"	#102901
Clear end (detachable)	40"	#102585
White bottom, clear top vinyl	40"	#50.10355

Nylon Lacing and Repair Twine

Multi-use braided nylon twine.

4 mm x 330' roll (550 lb break strength)	#102584
---	----------------

Photo courtesy of Bowling Green State University.

Custom Embroidery

Customize your net protectors with your logo, brand or tagline. Great to use as revenue generating premium sponsorship opportunity. Call for information and pricing.

GOAL ACCESSORIES

Goal Frame Transporter

Easily transport your goal frames on and off the ice. Fits all regulation size 6' wide frames. Choose from traditional with extra handle caster or collapsible for easy storage with 360° turning caster wheels. Fits all regulation size 6' wide and other size frames. *Sold individually.*

Traditional goal dolly
#103730

Blue collapsible goal dolly
#101808

Traditional Goal Dolly

Blue Collapsible Goal Dolly

Edge Protech

Protects skate blades from damaging goal post strikes during play. Snap-on design. Made by goalies for goalies. *Sold in pairs.*

Edge Protech #101295

Water Bottle Holder

Constructed out of lightweight and durable material with Velcro® strips for easy attachment to back of goal frame. Custom Water bottle holders are available. *Sold individually.*

Blue with Athletica tag #102898

Red with Athletica tag #102892

White with Athletica tag #103422

Custom logo available upon request (artwork required)

GOAL ACCESSORIES

Marsh Pegs

The professionals choice! Reduce injuries - Marsh pegs allow the goal frame to release on hard impact. Reduce game delays - No more unintentional net dislodging. Standard pegs 8" long. AHL/NCAA pegs 10" long. *Sold in set of 4.*

Red	13/16" dia.	#101309
Teal green	1 5/8" dia.	#101312
Blue	1 3/8" dia.	#101310
Lime green (AHL/NCAA Size)	1 7/8" dia.	#101311
Goal Post Insert Kit - (incl. 1 insert, 1 plug & shims)		#102126

Piranha Pegs

Built to last, with 1/4" steel plate and 3/4" stainless steel pegs. Contains hardened styrenebutadiene rubber for high durability and a tapered top for quick loading. *Sold in pairs.*

Piranha Pegs #103521

Freeze-In Posts

Helps minimize injuries by breaking away from ice on impact. Zinc plated steel construction. *Sold in set of 4.*

1 1/2" dia. for professional style goal frame

#40.10550

GOAL ACCESSORIES

Practice Goal Frame Packages

Save on wear and tear of your game goal frames with these light-weight practice goals. *Sold in pairs.*

4' H x 6' W x 34" D frame **6 mm** **#103779**

Fitting for 1.5" Hose	#50.10080

Instant Ice Slush Repair

When mixed with water, Instant Slush Ice Repair creates an ice-like surface to seal gaps and repair cracks and divots in your ice. One scoop makes a 5 gallon bucket.

Instant Slush Ice Repair 1 gal bucket	#50.10210
--	-----------

Hose Reels

Steel construction, powder coated. Reels have self-aligning bearings, locking mechanisms, tension brake and swivel joint for water connection. Sized to fit your needs and available in manual or powered rewind.

Specify the following when requesting a quote: Wall or floor mount. Manual or power rewind. Length and diameter of hose to be stored.

Hose Reel - Crank Wind

Durable metal reel keeps your hose neat and accessible.

Holds 250' of 1.0" Hose	#50.10175
Holds 275' of 0.75" Hose	#50.10176

RINK MAINTENANCE

SHOVELS, SCRAPERS, SQUEEGEES, AND SNOW PUSHERS

Plastic Shovel

Heavy-duty, industrial grade.

Dominator Plastic Scoop Shovel #102267

Dominator Plastic Scoop Shovel

Aluminum Scoop Shovel

Aluminum Scoop Shovel

Durable, lightweight aluminum scoop comes with 30" handle and 15-1/4" x 19" blade.

Aluminum Scoop Shovel #102262

Hot-Forged Scraper

Durable forged steel ice scraper has 8" x 5" blade and straight 48" steel handle.

Steel Handle Scraper #84.10030

Hot-forged Scraper

General Purpose Shovel

This durable shovel features a 14 1/2" x 15 1/2" carbon steel blade and 38" flame-toughened ash handle.

Snow Shovel #84.10090

General Purpose Shovel

Curved Squeegee

Quickly remove excess water off your ice surface. 36" straight with curved end and wood handle.

Squeegee #103438

Replacement Wood Handle #101420

Curved Squeegee

Double-edged Squeegee

Double Edged Squeegee

Double edged 36" straight squeegee.

Squeegee, Handle and Brace #84.55235

Squeegee Only #84.10165

Handle Only #84.10176

Brace Only #84.10155

Snow Pushers

Industrial strength snow pusher that works great on a wide variety of surfaces including ice, concrete, rubber, asphalt and wood.

Snowplow Pusher - 24" Width #84.10093

Snowplow Pusher - 36" Width #101413

Snowplow Pusher - 48" Width #101414

Snowplow Pusher

Heavy-Duty Steel Pusher

Features carbon steel blade with 48" handle made of durable ash.

Steel Pusher - 24" Length #84.10060

Steel Pusher - 30" Length #84.10070

Steel Pusher

ICE EDGERS

Zamboni Gas Power Edger

Powerful 10.5 HP engine and long lasting eight-sided 18" cutters reduce replacement time and cost. Designed for maximum ease of operation, the engine and depth controls are located on the handle and the unit provides stable "wander-free" control.

Machine Highlights

Powerful 10.5 hp engine is the largest in the industry. Internal counterweights reduce vibration for smooth performance.

Wide 18-inch (457mm) cut from eight-sided cutters that last longer, saving replacement time and cost. Depth adjustment is close at hand for ease of operation.

Contoured snow chute directs snow toward center of ice, away from the boards and operator. Adjustable board guide is standard.

Heavy duty steel plate body and runners ensure smooth, wander-free control. Baked-on powder paint and zinc electroplating for corrosion protection.

Zamboni Gas Powered Edger
#34.10242

Zamboni EZIII Edger

The EZIII electric edger offers a 6.5 HP motor at 36 volts. Its three AGM deep-cycle 12 V batteries were designed to perform for the application. With eight-sided 14" cutters, the EZIII provides an effective, long lasting cut, while saving replacement time and cost.

Machine Highlights

Powerful, yet quiet with stable wander-free control and infinite adjustability on demand for ease of operation.

Three industry-leading, AGM deep-cycle 12 V batteries designed for the application. The 4.8 kW (6.5 hp) electric motor at 36 volts is more powerful than other edgers.

Wide 14-inch (356 mm) cut from eight-sided cutters that last longer, saving replacement time and cost. Depth adjustment is close at hand for ease of operation.

Contoured snow chute directs snow toward center of ice, away from the boards and operator. Replaceable board guide is standard.

Zamboni EZIII Edger #34.10248

WinnCut Electric Edger

High performing, versatile electric edger.

- Anodized steel chassis
- High efficient electric motor, 2 kW
- Length 1055 mm, Width 428 mm, Height 933 mm
- Weight 113 kg
- 4+2 Cutting knives on knife plate
- Working width 340 mm
- Batteries 2 x 76 Amp 12 V
- Fully automatic electronic charger, 24 V, 11 Amp, 220 V
- Ball bearing wheels
- CE certified

WinnCut Electric Edger

BENCHES & BENCH SUPPORTS

Aluminum Benches

Aluminum benches are constructed of anodized aluminum plank (1-1/2" D x 9 1/2" W) with a 1/2" poly cover for seating comfort in ice arenas. Aluminum plank provides sufficient strength to provide maximum stiffness with minimum supports. Each bench includes end caps. Stock bench lengths are available in 8' and 24' lengths.

Aluminum Bench **8' Length** **#102351**

Aluminum Bench **24' Length** **#102352**

Recycled Plastic Lumber Benches

Recycled plastic lumber benches are comfortable, practical and can stand up to wear and tear. Available in wall mount, floor mount, and mobile cubby designs with 2' x 10" and 2' x 12" plank options. Powder coated brackets are also available.

STANDARD COLOR: Black

CUSTOM COLORS: Sand, Weathered Wood, Cedar, Light Grey, Tudor Brown, Grey, Light Oak, Turf Green, Off-White, and Redwood.

PREMIUM COLORS are available at additional cost: Bright White, Red, Blue, and Yellow.

NOTE: Plastic lumber is nominally sized as dimensional lumber. Other dimensions are available upon request. Non-standard colors require a minimum order.

Double Plank Benches - with and without backs

3C Seating

Bench Supports

Our Bench supports are aluminum constructed and available in socket, floor mount, and wall mount design. Custom sizes available upon request. Indicated heights are for the support only.

SOCKET MOUNT

Removable socket mounting for those applications where the benches need to be regularly removed a telescopic mount design is required. Available in two sizes.

Bench Supports	22"	#101126
Bench Supports	29"	#101125
Socket		#100163

FLOOR MOUNT

Concrete floor mount bench supports have a 3/8" x 6" x 6" mounting plate, pre-drilled with 7/16" holes for 3/8" concrete anchors. Available in three sizes.

Bench Supports	20"	#101211
Bench Supports	22"	#102355
Bench Supports	29"	#100017

WALL MOUNT BRACKET

Wall mounted bench bracket with pre-drilled mounting holes, with a size approximately 12" H x 10" D x 3"W. Powder coated black.

SKATE SHARPENERS

Blackstone Skate Sharpeners

Blackstone's patented spinner system changes the way skates have been sharpened for hundreds of years. The spinner system uses a small 1" disc precision machined with an ROH or an FBV shape. These custom discs are diamond coated to dress the grinding stone with the specific shape. High quality, low maintenance machines for all levels of play. Choose from four sizes to best fit your needs.

BLACKSTONE®

Blackstone FIREBALL

Blademaster Skate Sharpeners

Recognized throughout North America as the leader in the skate care industry, Blademaster offers the finest quality skate sharpening equipment as well as a full line of service products. Blademaster skate sharpeners and accessories are endorsed by the Society of Professional Hockey Equipment Managers (SRHEM) in North America and are used extensively by professional equipment managers and retailers around the world. Manufacturer's warranty is 1 year parts and labor.

Wissota Skate Sharpeners

Wissota 911 Skate Sharpener is a commercial grade portable skate sharpener made 100% in the USA. Proven to give you even edges every time right from home, "The Wissota Way."

BLADEMASTER

FACILITY PRODUCTS

DEHUMIDIFICATION SYSTEMS

ARID-Ice Dehumidifiers

Indoor ice arenas require humidity control to stop several problems including fog, mold growth and dripping. Because the ice sheet cools the building, moisture-laden air from outdoors condenses on anything below the "dew point". The MS Series Desiccant Dehumidifiers solve these issues. It is a perfect solution for new construction or replacing your old mechanical dehumidifier that no longer works.

SCOREBOARDS

OES Scoreboards

From the NHL to house leagues and every level of play in-between, OES LED Video and Scoreboards has a long history of partnering with arenas to bring scoreboards, videoboards and scoring and timing solutions to ice rinks.

Whether it's a compact scoreboard to display essential game stats or one customized with LED video, electronic team names and sponsor ads, OES offers models to suit every arena size and budget.

Various color options available.

ICE COVERS

ArenaDeck® Ice Cover

The best ice cover on the market today; a popular choice for a majority of NHL arenas. Heavy duty (500 psi allowable compressive strength) yet lightweight, easy to install and maintain. The finish texture provides the right amount of traction and can be easily cleaned with pressure washers or floor scrubbers. The underside waffle pattern traps air creating an insulating R-value of 2.84 and since it's synthetic, it won't absorb moisture, warp, swell or stick to the ice. Standard color is grey with an elephant skin texture. Solid panels are ideal for equipment gate locations.

ArenaDeck® Panel - Waffle	1" x 48" x 96"	55 lbs	#101430
ArenaDeck® Panel - Solid	1" x 48" x 96"	63 lbs	#101428
ArenaDeck® Panel - Honeycomb	2" x 48" x 96"		
ArenaDeck® Panel - Honeycomb	2.5" x 48" x 96"		

ArenaDeck® Light Duty

The cost effective, light-duty floor conversion panel designed specifically for smaller venues and community rinks to host light traffic, dry floor events. With the same waffle pattern, top surface texture and rated at 300 psi, these panels are the perfect solution for venues with fewer changeovers and smaller budgets.

Light Duty Panel - Waffle	5/8" x 48" x 96"	30 lbs	#101435
----------------------------------	-------------------------	---------------	----------------

ArenaDeck® FASCOAT Ice Cover

Arena Deck XT takes the same basic panel and adds a spray coating of FASCOAT for additional grip and traction. Black only.

FASCOAT Panel - Waffle	1" x 48" x 96"	55 lbs	#101431
FASCOAT Panel - Solid	1" x 48" x 96"	63 lbs	#101429

EverBase® 3 Modular Flooring System

EverBase® 3 (EBF3) is an 18" x 24" modular flooring tile that serves as a heavier duty stadium, arena, and event flooring system. The EBF3 features industrialized connectors that offer additional strength and durability. This system is designed for faster connection over turf, ice, and other uneven surfaces.

EverBase 3 may be used indoors and outdoors. From stadium flooring to ice arena flooring and from tent and event flooring to disaster relief or military flooring, the EBF3 is designed for rugged, everyday use.

Constructed of Hi-Impact Polypropylene Co-Polymer ("no-break") with UV Inhibitors added for outdoor use. Weight loading capacity is 8,000lb sq/ft on a solid subsurface, non-moving (static) weight, with equal distribution of load across the tile surface. Recommended ice temperature range: 18°F - 22°F (-7.77°C - -5.55°C)

EventDeck® Ultra Flooring System

EventDeck® Ultra is an indoor/outdoor event flooring and turf protection system for large scale tents and special events such as concerts, festivals and galas.

Easily convert your ice arena to a multi-use facility. Panels support heavy traffic and payloads remain stationary and will not slip under forklift traffic while 'floating' on the ice surface.

Panels can be positioned and snapped together using only your feet or hands, eliminating the need to use tools to install. This saves labor, time and effort for large installations.

Weight load is 138 psi / 20,000 psf static load with a solid subsurface.

ICE DAMS AND POLY RAMPS

Crystaplex® Steel Ice Dam

With features and benefits like these, it's no wonder the steel ice dam is fast becoming the ice dam of choice for multi-purpose arenas:

- Strong steel construction is resistant to both pressure and ice build up
- Uniformity and strength means puck rebound is consistent
- Replaceable HDPE kickplate at ice edge
- Double set of integrated dasher anchors provide 100% backup should an anchor become stripped or unusable
- Insulated to minimize frost buildup or edge thawing
- Anchors that are prone to stripping can be easily repaired or replaced
- Designed for installation on new rinks or retrofitted on existing rinks
- Laser measurements add to dimensional accuracy and higher quality

Available in 2" and 2.5" steel or stainless steel.

Crystaplex® 508 Ice Dam

2.0" height, available in either galvanized steel u-channel or fabricated stainless steel.

Crystaplex® 635 Ice Dam

2.5" height, available in either fabricated galvanized steel or fabricated stainless steel.

Steel Ice Dam

Steel / Powder Coated Steel Ice Dam

Poly Ice Dam

Popular for years in multi-purpose arenas, this natural white high density polyethylene dam has features not found in other ice dams:

- Cost effective
- Light weight and easy to install
- A good insulator
- Suitable for skate traffic

Commonly used in 7" widths to match dasher board panel widths and available in several thicknesses. In addition to the dasher anchors, the poly ice dam requires an additional 3 anchors per 8 feet.

Available in 1" or 2" thickness.

Poly Ice Dam

Poly Ramps

Durable and maintenance-free tapered poly ramps are custom machined from natural white HDPE. We offer ramps in 1", 1.5", 2", and 2.5" heights that taper down to 1/4". Available in straight or radius sections up to 10' in length.

HDPE Ramp - Straight	1.0" x 23" x 120"	#103686
HDPE Ramp - Straight	1.5" x 23" x 120"	#103687
HDPE Ramp - Straight	2.0" x 23" x 120"	#103688
HDPE Ramp - Straight	2.5" x 23" x 120"	#103689
HDPE Ramp - 28 ft Radius	1.0" x 18" x 120"	#103690
HDPE Ramp - 28 ft Radius	1.5" x 18" x 120"	#103691
HDPE Ramp - 28 ft Radius	2.0" x 18" x 120"	#103705
HDPE Ramp - 28 ft Radius	2.5" x 18" x 120"	#103706

Poly Ramp

Black-out Drapes

Custom fit to your specific dasher system. Drapes include Velcro® board attachment and Velcro® drape connections. Drape lengths are dictated by gate locations in dasher layout. Fabric selections include a variety of colors and materials depending on aesthetics, durability, ease of cleaning and fire rating. Please contact us for a quote specific to your needs.

Retractable Netting Systems

Retractable systems for containment netting are available in both hand crank and motorized winch versions depending on your specific requirements. Nets retract using a bridle system and series of cables. Netting options include nylon and Kevlar protective netting. Call us for a quote.

Vinyl Runner

Provides durable protection of floors, and pointed ribbing provides maximum traction in walkways. Our vinyl runner is resistant to water and chemical damage, and will not shrink or curl over time. Rubber runner is more suitable for colder environments.

Vinyl Runner - 1/8" x 3' x 105' **Black** **#102407**

Rubber Runner - 3/32" x 3' x 150' **Black** **#103760**

Aristocrat Tunnel Covers

Retractable entrance covers tailored to your needs. Available in a variety of colors and made to fit your exact tunnel dimensions. Collapse and roll away on wheels for easy storage.

NHL Water Bottle Holders

Custom-designed and custom-made to fit each unique player and penalty box configuration. Providing an elegant and organized storage solution to separate and segregate players' water bottles, the removable tray design also allows for easy cleaning and sanitization.

Puck Freezer

Keep your pucks consistent and frozen while traveling. For ultimate ease of transportation, the compact freezer runs off standard voltage. Digital thermostat is adjustable from -8 to 50 degrees F.

Puck Freezer

#102838

Glass Lifters

Suitable for gripping and holding any smooth surface. Acrylic, tempered glass etc. up to 125 lbs max. weight. 8" diameter suction cup with a lexan handle and storage case.

Individual Glass Lifter

#101425

Forklift Attachment for Glass Lifter

Specially designed for safe and secure attachment of the electric glass lifter to standard forklift forks. Double fork capacity. Maximum load capacity of 2000 lbs.

Double Fork Model

#101302

Electric Glass Lifter

A must for moving large sheets of tempered glass up to 700 lbs max. weight. A battery powered vacuum pump allows for a quick "hookup". Glass lifter frame is hinged so glass can be tilted and the shield can be rotated. Forklift rigging attachment NOT included.

Electric Glass Lifter

#101304

STORAGE CARTS

A-Frame Shielding Storage Cart

Available in two sizes to accommodate various shielding and storage room sizes. Each cart frame is constructed of welded steel and painted with strategically located white poly cladding to eliminate metal to glass contact. Two rigid and two swivel wheels allow the cart to be easily maneuvered via the welded-on towing tongues and pull handles (one each end). Two ratchet and strap assemblies are included with each cart. Maximum load capacity is 5000 lbs. *Assembly required.*

Large A-Frame Storage Cart 48"W x 84"H x 96"L #101207

Small A-Frame Storage Cart 52"W x 58"H x 60"L #102625

Dasher Board Storage Cart

Storage carts are constructed of a welded steel and painted frame with 6" wheels (2 rigid and 2 swivel) that have been engineered to carry maximum loads. The cart deck is covered to eliminate metal to metal contact with end rails to minimize panel shifting and damage during transport. To maximize the load capacity, 12 straight (7") dasher panels can be easily loaded side by side and upright. The unique cart design allows for cart stacking to maximize storage space. Maximum load capacity is 2000 lbs. *Assembly required.*

Dasher Board Storage Cart 56"W x 72"H x 110"L #102209

Steel Slotted Dasher Cart with Ramp

Constructed of welded steel and painted frame with 6" wheels that allow the cart to be easily maneuvered. Features a hinge-mounted ramp for ease of loading. Poly spaces to prevent damage to drop kick. *Dolly available separately.*

Conversion Storage Cart #103683

ArenaDeck® Stackable Storage Cart

ArenaDeck® storage carts are constructed of a welded steel and painted frame with 6" wheels (2 rigid and 2 swivel) that allow the cart to be easily maneuvered. The cart deck is plywood. Each cart will hold up to 50 1"H x 48"W x 96"L ice covering panels. Maximum load capacity is 2400 lbs. *Assembly required.*

ArenaDeck® Storage Cart 56"W x 72"H x 110"L #102987

Crystaplex® HDM Cart

The cart frame is constructed of aluminum. Includes 2 cart push bars, with 2 swivel and 2 rigid caster wheels, allowing for easy movement. Holds 66 pieces of Crystaplex® HDM sleeves, Crystaplex® WIDE sleeve variant also available. *Assembly required.*

Crystaplex® HDM Cart 38"W x 48"H x 30.5"L #102305

Crystaplex® HDM LED Cart 38"W x 48"H x 30.5"L #103660

Slotted Acrylic Cart

The cart frame is constructed of steel with a powder coating. Includes 2 swivel and 2 rigid caster wheels, as well as tow hitch and forklift lifting channels. Holds 34 pieces of 93" long Crystaplex® HDM sleeves, Crystaplex® HDM WIDE sleeve variant also available, or 30 pieces of 99" long Crystaplex® 590 Acrylic. Maximum load capacity is 6000 lb.

Slotted Acrylic Cart 64"W x 93" H x 108" L #103478

Slotted Acrylic LED Cart 64"W x 93" H x 108" L #103661

Curved Acrylic Cart

The cart frame is constructed of aluminum. Includes 2 cart push bars, with 2 swivel and 2 rigid caster wheels, which allow it to maneuver easily. Holds 7 complete curved acrylic assemblies and stores 4 additional HDR and 4 2C posts as well for convenience. *Assembly required.*

Curved Acrylic Cart 65"W x 110.5"H x 89"L #102357

SKILLS DEVELOPMENT

CROSS-ICE ACCESSORIES

Optimizer® Rink Divider Set

The Optimizer® is an aluminum framed rink divider designed for ultimate ease of installation and long wearing performance; the premier solution for arena managers, hockey coaches, and associations looking to 'divide the ice' in order to facilitate half-ice practices as recommended by various federations, including USA Hockey's American Development Model (ADM) and Hockey Canada's Cross Ice Initiation Program.

The Optimizer® is available in standard 85' and 100' lengths and is shipped on its own storage cart. Designed for ease of assembly and tear down, Optimizer® includes a 28" gate opening panel and standard radiused ends. Each panel measures 90" long by 36" high and is made from aluminum welded frames. Facing is white HDPE with a red or blue top cap. Other colors available upon request. Options include a 42" high version, yellow kickplate, and netting for upper puck containment. Customized panel lengths can be ordered to fit other rink widths. Radius gates also available.

Standard set contains:

- 9 standard straight panels - 90" long
- 1 gate panel - pass through gate
- 2 Y-connector panels
- 4 radius panels (2 per end) - 78" long
- Adjustable tension buckles
- 1 storage cart

Shipping weight - 1150 lbs, 4'x 8'x 5' H

SKILLS DEVELOPMENT

Optimizer® Foam Rink Dividers

Make the most of your ice time, rink programming and training effectiveness with our durable Optimizer® Foam rink dividers; designed specifically for cross-ice style training. Fast and easy to set up, the durable panels are constructed of high-density foam with a tear-resistant vinyl covering. Heavy-duty Velcro® straps securely connect the panels. The rectangular shape allows for uniform rebound and play on both sides. Great for dry-land training and intramural sport containment. Graphics can be silk screened on both sides of the panels to provide sponsorship opportunities.

Optimizer® Foam Standard

Great for Mini-Mites, Mites, Squirts and zone specific drills. Optimize your rental ice time with these safe, durable and easy to set up panels. Standard color is black. Weighs 20 lbs per 10 feet.

BP-D Standard Panel	12"H x 8"W x 120"L	#101589
BP-D Standard Panel	12"H x 8"W x 60"L	#101590

DASHBOARD REPLACEMENT COMPONENTS

ADVERTISING PANELS

Impact Ad Panels

Specially designed to withstand the continual use and abuse from pucks, players, vibration, moisture and temperature changes.

- Fabricated to precisely fit your new or existing dasher panels including gate sections.
- Panels feature bullnose edging and rounded corners to minimize errant rebounds and potential player injury.
- Panels are supplied as predrilled and countersunk or as blanks.
- Flathead screws with special hi-lo thread seat below the panel surface to provide a safe and secure attachment. Can be easily removed for graphic and message changes.
- Impact Ad panels are also available with sponsor, graphic or message decals already applied and ready to install. The decals are professionally printed and installed using customer supplied artwork files. Vibrant and long lasting but can be removed for sponsor or message change.

1.5" thickness	Straight	7" x 120"	#101883
1.5" thickness	Radius	7" x 120"	#101886

Custom 12" Red and Blue Lines

Display your team or arena logo within the red or blue lines of your rink. Durable hi-density dasher facing material is CNC machined to match your logo and inlaid into the lines just like in the professional arenas. Great looking and made to take the abuse. Please email a copy of your logo for quote request.

Crystaplex® Quick Release Brackets

Bolted directly to the panels and clipped into the dasher frames, dasher board panels can be removed quickly with the actuation of a 1/4" dowel. Designed specially for use on 3/4" and 1" thick caprail on Crystaplex® dasher systems. 4 brackets required per panel.

Upper Bracket	#100164
Lower Bracket	#100165

SoftCap® Flexible Caprail

Our SoftCap® caprails are made using flexible thermo-plastic elastomers for a more forgiving surface that will help reduce the chance of player injury when in contact with your rink boards. Testing indicates that our SoftCap® is 96% more flexible and compressive than current HDPE top caps. Comes with a 1/2" NHL bullnose front edge.

DASHERBOARD REPLACEMENT COMPONENTS

UVEEBOARD® Outdoor Puckboard

Durable and long lasting, all-purpose UVEEBOARD® dasherboard cladding is the ultimate outdoor puckboard for all-weather outdoor and indoor use. UVEEBOARD® offers superb resistance to degradation from UV exposure, very low coefficient of expansion and contraction, and has superior cold temperature impact ratings due to its special resin composition; it looks, feels and cuts like conventional HDPE. Used in facing, caprail and kick plate applications in your choice of 4 colors: blue, gold, white or yellow. Sheet sizes available in 1/4" or 3/8" thickness.

Kickplate sizes available in 1/4" or 1/2" thickness.

.220" thickness	42" W x 97"	#100289
.375" thickness	42" W x 98"	#100299
.375" thickness	48" W x 98"	#100305
.500" thickness	48" W x 98"	#100308
.500" thickness	42" W x 98"	#100317

Fiberglass Dasher Facing

Recommended thickness for ice hockey is 3/8", 1/4" for inline hockey.

STANDARD SHEET SIZES:

.250" thickness	42" x 96"	#101261
.375" thickness	42" x 96"	#101263
.250" thickness	48" x 96"	#101262
.375" thickness	48" x 96"	#101264

Fiberglass Kick Plate

Available in various thicknesses upon request.

STANDARD SHEET SIZES:

Gold	.250" thickness	
8" x 96"	#102437	
Gold	.250" thickness	
6" x 96"	#101977	

DASHBOARD REPLACEMENT COMPONENTS

Tempered Glass

Tempered glass is commonly used in community arenas:

- Scratch resistant
- Easy to clean
- Use with supportless systems

Standard glass comes "arena-ready" with radius top corners and flat-ground edges and is available in 12mm (5/8") or 15mm (1/2") thickness. ANSI stamped. Custom sizes also available. Speaker and media holes are also available.

Acrylic Shielding

Acrylic shielding is the industry standard in competitive multi-use arenas with frequent changeovers.

- Flexible and lightweight
- Easy to store
- Use with conversion systems

Fabricating shielding to "arena-ready" with top two corners rounded and exposed edges bullnosed is recommended to minimize breakage.

Whatever you need, we can supply full-sheet, cut-to-size, and arena-ready acrylic shielding in these options:

Crystaplex® 590 Plus

This material has been successfully tested by Athletica Sport Systems, approved for use by the NHL.

STANDARD SHEET SIZES:

51" x 100"	#100491
60" x 96"	#100492
75" x 100"	#100493

Crystaplex® 545" Acrylic

STANDARD SHEET SIZES:

50" x 99"	#103518
62" x 99"	#103519
74" x 99"	#103520

12mm (.472") Acrylic

This product is an alternative to 1/2" glass, providing a transparent solution.

STANDARD SHEET SIZES:

48" x 96"	#100482
60" x 96"	#100483
72" x 96"	#100484

Polycarbonate shielding in 3/8" and 1/2" is available on request.

What is Crystaplex® 590 Plus acrylic?

At Athletica Sport Systems, we take the science of sport seriously; we know that as technology has made hockey sticks lighter and slapshots faster and harder than ever, flimsy shielding doesn't cut it. That's why we only use Crystaplex® 590 Plus acrylic in our seamless acrylic shielding systems.

Not all acrylic shielding is created equal. In some cases, what is referred to as "half-inch" thickness may in fact be as thin as .472" thick.

The Crystaplex® 590 Plus acrylic is guaranteed always to be between 0.585 inches and 0.620 inches thick.

You get all the advantages of lightweight acrylic with lasting durability you need in your dashboard shielding.

DASHERBOARD REPLACEMENT COMPONENTS

Crystaplex® HDR Heavy-Duty Quick Release Shield Support

Specially designed for use by multi-purpose facilities where changeover speed is critical, one person can remove shielding from ice side by unhooking the faceplate. Flat profile faceplate minimizes unusual puck deflections. Use with B110 gaskets and B94 gaskets.

STANDARD SIZES (overall length/height above cap rail):

3' Shielding	35" Face / 54.375" Back
4' Shielding	47" Face / 66.375" Back
5' and 6' Shielding	59" Face / 78.375" Back
7' and 8' Shielding	83" Face / 102.375" Back

Crystaplex® HDM Sleeve

Engineered for seamless acrylic installations, the HDM sleeve is constructed of flexible polycarbonate for maximum player safety. Transparent design allows for increased fan experience.

69"	#103488
93"	#103487

Crystaplex® 2C Shield Support

Used for right angle turns and shield termination points at box corners or gate locations. Use with B110 gaskets and B94 gaskets.

STANDARD SIZES:

3' Shielding	59"
4' Shielding	71"
5' and 6' Shielding	83"
7' and 8' Shielding	107"

(14' lengths also available)

Crystaplex® Mark VI Shield Support

Requires only one person with a screw gun for shield installation or removal from ice side. Springnut channel design prevents stripping common with tapped bolt designs. Use with B110 gaskets and B94 gaskets.

STANDARD SIZES (overall length/height above cap rail):

3' Shielding	35" Face / 56.5" Back
4' Shielding	47" Face / 68.5" Back
5' and 6' Shielding	59" Face / 80.5" Back
7' and 8' Shielding	83" Face / 104.5" Back

Crystaplex® HDM Wide Sleeve

Built with flexible transparent polycarbonate and engineered for seamless acrylic installations, the Crystaplex® HDM wide sleeve can be retrofit with existing shielding.

69"	#103491
93"	#103829

Crystaplex® Mark IV Shield Support

Standard one-piece shield support for .500" shields only. Used on both inline and ice hockey rinks with support. Use with Mark IV plastic U-channel gasketing.

STANDARD SIZES:

3' Shielding	55"
4' Shielding	67"
5' Shielding	79"

Clearvision Support

Clear Vision Supports minimize viewing obstruction and provide for more flexible shielding. Supports do not require gaskets. Unique design allows for quick shielding removal.

111"	#102824
87"	#102825

DASHBOARD REPLACEMENT COMPONENTS

Crystaplex® HDS Post

Increase player safety with an easy retrofit from aluminum Crystaplex® HDR post and Pro Series™ shield support. Flexible polycarbonate shielding support engineered specifically for Crystaplex® 590 Plus acrylic shielding. More flexible option. Glazing gaskets not required. Custom colors available.

91" tall HDS post (specific to 0.590" acrylic)	#103754
115" tall HDS post (specific to 0.590" acrylic)	#103753

88.75" tall HDS post (specific to 0.545" acrylic)	#103821

PRO Series™ End Shield Supports

Removable faceplate allows for ease of shielding replacement. End supports are used at shielding termination locations and on gate doors. Standard posts will support 1/2" and 5/8" shielding - tempered glass or acrylic.

STANDARD SIZES:

4' Shielding	36" Face / 60" Back
5' Shielding	48" Face / 72" Back
6' Shielding	60" Face / 84" Back
7' Shielding	72" Face / 96" Back

PRO Series™ Corner Shield Supports

Removable faceplate allows for ease of shielding replacement. Corner supports are used at player, penalty and timer box locations. Standard posts will support 1/2" and 5/8" shielding - tempered glass or acrylic.

STANDARD SIZES:

4' Shielding	36" Face / 60" Back
5' Shielding	48" Face / 72" Back
6' Shielding	60" Face / 84" Back
7' Shielding	72" Face / 96" Back

PRO Series™ Mullion Shield Supports

Removable faceplate allows for ease of shielding replacement. Standard posts will support 1/2" and 5/8" shielding - tempered glass or acrylic.

STANDARD SIZES:

4' Shielding	36" Face / 60" Back
5' Shielding	48" Face / 72" Back
6' Shielding	60" Face / 84" Back
7' Shielding	72" Face / 96" Back

DASHBOARD REPLACEMENT COMPONENTS

BAP Aluminum Shield Supports

Shield support uprights are constructed of solid extruded aluminum with clear anodized finish. Furnished complete with shield gaskets, these supports are available in various configurations to meet your specific needs. Standard and custom shield support lengths available.

BAP Two Piece H-Channel

Cut to desired lengths.

BAP Termination Post

Used at gate locations.

3'/4' Shielding	47 1/8"
5' Shielding	59 1/8"
6' Shielding	71 1/8"
7' Shielding	83 1/8"
8' Shielding	95 1/8"

BAP Round with Face Plate

The standard post used for the Becker 6.0 system, round design with two-piece construction.

3'/4' Shielding	34 1/2" Face / 55 5/8" Round
5' Shielding	46 1/2" Face / 67 5/8" Round
6' Shielding	58 1/2" Face / 79 5/8" Round
7' Shielding	70 1/2" Face / 91 5/8" Round
8' Shielding	82 1/2" Face / 103 5/8" Round

BAP Quick Release Shield Support

Designed for multi-venue facilities where quick change out of shielding is required.

6' Shielding	70 1/2" Face / 90 3/8" Round
6' w/ Cushion	70 1/4" Face / 90 3/8" Round
8' Shielding	94 1/2" Face / 114 3/8" Round
8' w/ Cushion	94 1/4" Face / 114 3/8" Round

BAP C-Channel

Cut to desired lengths.

One piece H-Channel

Cut to desired lengths.

Fastener Maintenance Kit

Kit includes attic stock of the common fasteners required for routine maintenance of dasher systems. Please specify model system and caprail and kickplate colors. Also includes drill bit, countersink and drive required.

Fastener Maintenance Kit #102586

Vertical Lift Gate

Another example of the "Safety Through Innovation" thinking that keeps Athletica Sport Systems on top in the dasherboard industry. With all the standard safety and construction features we build into our gates, nothing else comes close:

- Infrared safety beam prevents the gate from descending accidentally
- If there's an obstruction, the heated safety switch located on the underside of the door will automatically force the gate to reverse back up
- Built-in mechanical safety brakes lock the gate in place should a chain fail
- Remote control included
- Manual gate control in the event of a power loss
- Follow-up annual safety inspections

We keep safety "top of mind". Why take chances with anything but the best?

Replacement Panels/Gates

Individual replacement sections can be made to fit your exact requirements. Whether your problem is damage to an existing frame or you need to add an additional access gate, we can help. Replacement sections can be made to fit wood frame, fiberglass, steel or aluminum frame systems. Call to discuss your needs.

Glass Spectator Railings

No one builds them better! Custom designed, engineer approved glass spectator railings that are sturdy, safe and always up to code. Contact us today for more information.

Basement and Backyard Rinks

If you and your family are looking to spend more time playing the great game of hockey, look no further than Athletica Sport Systems for all your rink needs. We've sold and installed backyard and basement rinks across North America and around the world.

Whether you need a rink with square or radius corners, tempered glass or lightweight acrylic, fencing or no shielding at all, we have what you need. And don't forget benches and netting too.

Contact us today for a free no-obligation quote on your own personal dasherboard system. Ask us about the many advantages of using synthetic ice.

Service

Servicing your arena boards makes good sense, and we can help. Dasher boards need to be maintained to ensure they operate in a manner that assures the safety of the skaters and hockey players who use them. Your dasher boards are the most visible features of your rink. Maintaining your boards will create a lasting impression and costs a whole lot less than replacement.

Our dasherboard technicians and installation supervisors are seasoned professionals, experienced and ready to help you keep your boards and rink equipment looking and working their best all year round. And that includes outdoor rinks too!

More than just arena services, Athletica Sport Systems offers solutions for your everyday service needs. Lift gate inspections, board and gate adjustments, re-cladding and assistance with conversions, are just some of the services we provide.

Call us for more details and a no-obligation quote.

FLOORING

SportFloor Stamina

Stamina repels liquid to minimize clean up and odor with little maintenance. This makes for a cleaner, longer lasting floor that is designed to withstand heavy use in all types of fitness and arena spaces. Cut and dent resistant. Available in 8mm (5/16"), 10mm (3/8"), 12mm (1/2") 4 x 6 tiles. Stamina Interlocking tiles available. *Samples available.*

Stamina

SportFloor ReAction

ReAction provides superior traction for the most demanding athletes and environment. With a non-porous top layer and shock absorption dual-layer system, it is a highly resilient and hygienic floor. Available in 10mm and 8mm tiles and rolls. *Samples available.*

ReAction

SportFloor ProXL

ProXL is designed to be a long-lasting, high-performance floor. Its versatility, anti-slip, and dual layer durable construction is manufactured to withstand heavy use in the toughest facilities. Available in 10mm and 8mm tiles and rolls. *Samples available.*

ProXL

ARENA FLOORING

Regupol

Regupol Aktiv is recommended for all fitness surfaces. It allows for maximum comfort underfoot and absorbs the shock of training impact.. Regupol Aktiv Sports and Fitness surface has a five year warranty and is GreenCircle Certified.

Norament 992 Grano

Norament® 992 grano is for sports facilities and fitness centers who operate in a competitive environment where it's important to make a strong impression. The high rubber content makes it the ideal cut-resistant and slip-resistant surface for ice skate blades when skaters are walking or standing around the rink. This flooring is durable, easy to clean and slip-resistant.

Enlio

Specializing in sport surfaces including PVC sports flooring, modular court tiles, and multi-use commercial flooring, Enlio sports flooring have been adhering to the management system of "Quality First, Services First" from the beginning, and utilizes advanced test equipment to provide excellent sports flooring.

Connor Elastiplus™

Seamless multi-sport gym surface. This advanced poured urethane surface is highly customizable in terms of wear layer thickness, performance and resilience for a solution perfectly adapted for your facility's multipurpose needs. Available as Elastiplus for everyday sport and Elastiplus High Strength for added toughness.

ARENA FLOORING

Ecore Everlast

Everlast is the "original" recycled rubber fitness floor. Designed with punishment in mind using only the finest quality recycled rubber and state-of-the-art technology.

Black Rubber Matting

Recycled black rubber matting is an economical flooring solution that provides excellent skate resistance for years of use. Heavy enough to be "loose laid" or glued in place. Nominal size is 4' x 6' - may need to be squared before installation or can be factory trued to square (47" x 71").

3/8" thick	
Nominal	#102133
1/2" thick	
Nominal	#102047
1/2" thick	
Squared	#101156

Vinyl Runner

Provides durable protection of floors, and pointed ribbing provides maximum traction in walkways. Our vinyl runner is resistant to water and chemical damage, and will not shrink or curl over time. Rubber is more suitable for cold environments.

Vinyl Runner - 1/8" x 3' x 105'	Black	#102407
Rubber Runner - 3/32" x 3' x 150'	Black	#103760

Choice Skate Traffic Carpet

BAP Choice Skate Traffic Carpet is tough enough to survive ice skate traffic yet maintains its natural beauty and luster. Polypropylene fiber lasts longer than traditional nylon carpets and repels moisture to resist rot and mildew. A special anti-microbial treatment results in fast drying.

Rubber Flooring - Roll, Tile, Interlock

Designed as an economical flooring product that combines high skate resistance with budget and aesthetics. We recommend a 3/8" thickness for optimal skate resistance in all three products while our less expensive rolled matting is ideal to reduce seams. Available in black or with EPDM color granules in black or 20% fleck. 16 EPDM color granule options to choose from or reflect your building/team colors with custom color chips at no additional cost. 3 year pro-rated warranty.

Roll - 3/8" x 4' x 50'	Black	#101612
Roll - 3/8" x 4' x 50'	20% Fleck	#102655

GYM FLOORING

CAS Vinyl Flooring

High-quality PVC sports floor has a surface of moderate varicose and foam buffer layer provides users with comfort and safety.

100% new materials, products can be recycled. No DOP, no heavy metal, zero formaldehyde. Treated with an antibacterial anti-enzyme bacterium.

10%-50% shock absorption provides long-term protection for the athlete's joints and cartilage.

Provides the best grip and slide balance, and ensures smooth movement, to reduce the possibility of strain and fracture.

Meets all performance requirements for various uses such as competition, training and recreation activities.

Can absorb up to 17-25 dB of noise.

The flooring is wear-resistant and extremely durable.

WOOD FLOORING

Every square foot of Connor Sports premium sports flooring is proudly manufactured and assembled by dedicated men and women in the Upper Peninsula of Michigan. They take pride in responsibly sourcing high quality materials including FSC® Certified lumber and locally produced components to ensure every finished court provides the highest levels of athletic comfort and performance.

Alliance™

Fixed resilient system. Available with optional solid blocking. Economical performance flooring system features great resilient performance and optional solid blocking design to offer professional level athletic comfort to facilities of all sizes & budgets.

NeoShok™

NeoShok™ pads are engineered to ensure responsiveness to both light and aggressive athletic loads. Two pad durometer options allow for customization of the system's performance to match each facility's specific needs.

PermaFlex™

This unique sub-floor design encapsulates Rezill™ pads between an upper flex sleeper and a lower base sleeper to extend the system's resilient life and accommodate heavy non-athletic loads through use of manufactured 16-gauge steel-encased sleeper sub-floor supports. A truss support option allows for profile height adjustment ideal for retrofit installations. DIN & PUR compliant.

RezillBase™

Advanced permanent flooring system that can be installed with Secure Grip Technology™. This highly configurable system allows you to get exactly what you need out of your floor without paying for unwanted features or sacrificing performance.

VIP II®

Advanced premium flooring system featuring patented Dual Dampening Vibration Control and Athletic Response Ridge™ technology for the ultimate combination of multi-athlete resilience & comfort.

CONNOR SPORTS

GYM FLOORING / TURF

GYM FLOORING

TURF

CAS ISO-Cushion Floating Gym Floor

ISO-Cushion is our most popular bio-mechanically designed floating wood floor system. We have taken into consideration the performance requirements of athletes all age and size. We are able to fine tune the shock absorption as required.

As a result of combining a thicker maple surface, dual layer sub-floor, and resilient ISO-cushion pads, this floor can be perfectly fine tuned for the performance levels targeted for particular activities.

Excellent non-athletic load bearing capabilities with a continuous sub-floor that adds strength and load stability throughout the floor.

SYSTEM FEATURES

- Northern Hard Maple
- Variety of pad options
- Continuous solid sub-floor
- Floating system to allow for expansion

PAD FEATURES

- 2-stage resilience for light and heavy loads
- DIN tested shock absorption
- 45 and 55 durometer options

EasyCourt Portable Sports Panels

EasyCourt combines Tarkett Sports' Omnisports Compact 2.0 mm surface with a high-density foam to produce a court with an industry-leading shock absorption of 58%. That is 40-45% above most portable alternatives.

EasyCourt is a portable court comprised of 5.14'x 3.44' tiles that securely lock together on all sides. These lightweight tiles make it easy for a crew of eight to install a full court in approximately 45 minutes, compared to 90 minutes or more for other portable courts. The maple wood grain pattern has the look of a hardwood surface, offering an aesthetic that is much more desirable than the appearance of molded plastic tiles.

EasyCourt provides a competition-level court that is more comfortable for players, mitigating lower extremity injuries and excessive fatigue. Not only does this portable flooring system feel great underfoot, but you can convert any area into a court-like surface in a matter of minutes with our EasyCourt interlocking portable wood grain designed vinyl system.

TarkettSPORTS

TURF

EasyField Portable Sports Panels

Made of high-quality synthetic turf, EasyField has been tested under rigorous conditions and is designed to outlast any portable system under the harshest use. EasyField feels great underfoot and looks tremendous in any setting.

EasyField by FieldTurf was designed with your facility in mind. It's a quick, convenient, portable, high performing indoor turf system. EasyField provides indoor facility owners with the ultimate in versatility – a durable, impact-absorbing turf system. FieldTurf engineered the easiest, fastest and most secure way of locking your portable field panels together.

The turf area of each panel has a dimension of 5.17 ft x 3.44 ft. At just 21 pounds, each panel is extremely light weight for easy carrying, maneuvering and installation. Installing a good sports field has never been this easy. Our do-it-yourself system is so simple, a small crew of people can install a full size field (17,000 sq ft) in less than a day. No special equipment. No heavy lifting.

FieldTurf®
A Tarkett Sports Company

GrassTex Arena Pro & V-Max

This non-rubber infilled turf has all the advantages of previous generations and perform even higher in wear and resistance tests. The blend of nylon and polyethylene is an almost perfect 50/50 combination. This gives you the true ball roll of a traditional nylon field, with the softness of the new generation rubber-filled turf. No rubber infill makes maintenance easier, and up to 10% cooler. These systems can also be portable with added 4" or 8" Velcro. Various turf colors available.

Nexxfield X-Gen E2

X-Gen E2 portable turf uses a modular system, which is manufactured in ready-to-assemble panels (1.2 X 2.3 meters) that easily fit together using overlapping fastener linings. This creates a much safer portable turf system as compared to regular interlock panels or traditional heavy rolls.

The unique system construction makes it the ideal conversion system for arenas, gymnasiums, and multi-purpose facilities. The E2 panel system's unique construction process is also perfect for portable and permanent outdoor use.

All NEXXFIELD E2 portable turf systems are built with exclusive Hybrid Flex shockpad series, which is a more resilient olefin product than regular friable expanded polypropylene (EPP). The E2 includes a durable, flexible shockpad that's ideal for frequent installation/dismantling and comes with the same safety features as the EPP. While slightly less stiff than standard EPP, the E2 is a more flexible molded product with improved tensile elongation and tear strength, with similar shock-absorption properties. It also can be molded using less energy (lower steam pressure) than standard EPP.

Turf Claw Foam Back Turf Adhesive

Turf Claw FB is a high solids adhesive developed to withstand outdoor environments, as well as demanding indoor applications. Made with an advanced antimicrobial system to protect the adhesive from bacteria and fungal growth, Turf Claw FB is solvent-free, low odor and designed for the permanent installation of rubber backed and urethane backed artificial grass carpet, outdoor unitary latex and marine back carpets, carpet with synthetic secondary backings, cork underlayment and flooring. Turf Claw FB is also recommended for indoor installations of most commercial carpets except for those with vinyl backings. Turf Claw FB is CRI™ Green Label Plus approved for indoor air quality.

GYM & OUTDOOR EQUIPMENT

BASKETBALL BACKSTOPS

CAS1120 Series Fixed Backstop

Built with 2" x 2" x 0.125" HSS tubing. Wall attachments are custom designed to suit wall construction. Durable enamel finish in standard black, blue and white.

Official-sized rectangular backboard options include steel, fiberglass (weatherproofed for indoor or outdoor use) and tempered glass. Custom frame / edge padding colors are also available.

CAS1120 Series Fixed Backstop

CAS1190 Series Side-Folding Backstop

Built with 2" x 2" x 0.125" HSS welded framework, 3/4" pivot hardware. Wall attachments are custom designed to suit wall construction. Telescopic positioning arm with spring loaded locking mechanism. Durable enamel finish in standard black, blue and white.

Official-sized rectangular backboard options include steel, fiberglass (weatherproofed for indoor or outdoor use) and tempered glass. Custom frame / edge padding colors are also available.

CAS1120 Series Side-Folding Backstop

Forward-Folding Backstop

Provides great stability at tall heights, the Basketball Backstop's bent stem reduces space between pivot point and jackknife to assist in avoiding obstructions. This ceiling-suspended, front-braced, forward-folding basketball backstop features fully-welded construction to attachment heights up to 27' 7" (8.41 m). Backstops are custom designed so the lateral sway brace intersects the main mast at approximately 54" (1.37 m) above the goal 18" (45.7 cm) above the backboard) to ensure maximum rigidity.

Frames have black or white powder coat finish; other color options available. The front-braced, forward-folding Basketball Backstop features bolt-together construction for ceilings over 27' 7" (8.41 m).

GYM & OUTDOOR EQUIPMENT

SOCCER & FOOTBALL

Round-Frame Aluminum Soccer Goal

The portable round-frame aluminum soccer goal completes your goal box for regulation play on the soccer pitch. The white powder-coated 6' x 12' goal with 4" round frame provides strength and stability, while the continuous net attachment channels along the ground bar prevent ball breakout.

Top-of-the-line goal is designed for competitive play and withstands rigorous games.

4" x 2" full ground bar with net clip channel provides ultimate stability and prevents balls from sneaking in on the side or rolling through the back of the goal.

Extruded aluminum frame is lightweight for ease of assembly and transport. Welded one-piece goal frame corners provide strength and rigidity with no visible hardware. Crossbar, uprights, side bars, and ground bar all contain a channel for easy and secure net clip insertion, as well as keeping the net securely fastened to prevent balls from sneaking through the net. Crossbar, uprights, side bars, and ground bar are powder-coated white for durability and protection against weather elements. Goals sold in pairs; nets are included. Permanent, semi-permanent and custom size goals available.

Soccer Nets

Soccer nets constructed of high-tenacity polypropylene to provide maximum strength during relentless play. Knotless netting ensures safety and ease of set up. All nets include net clip attachments for safely securing net to goal. Most sizes available in your choice of white or orange. All nets feature blue location tags to help with proper installation. Meets NCAA, NHSAA, and FIFA specifications. *Sold in pairs.*

Combination Soccer/Football Goalpost

Maximize use of your field with the FGP200 combo football and soccer goal. The soccer goal is official size 8' x 24', while the football uprights are 10' in the air with 23' 4" spacing for high school competition play. The entire goal is powder-coated white and constructed of 4" square steel tubing for strength to last through all weather environments.

Maximizes your field space and budget by providing a football goalpost and soccer goal in one versatile unit.

For permanent or semi-permanent installation. Net not included.

Candy Cane Soccer Goal Anchors

The SGSA anchors provide added stability to portable soccer goals with 1-5/8" backstays to reduce the risk of goals tipping over. Each anchor weldment consists of an 8-1/2" long zinc-plated wire formed screw and is attached over the backstay with a heavy clamping bracket. Kit contains 4 anchors for use on a single soccer goal. *Sold in sets of four.*

SEATING

Seating for all facilities

We sell, install and provide service for seating requirements to almost any Arena, Stadium or facility of any kind. With our in-house CAD design, manufacturing and testing, we assure the best product every time for our customers. Our full-time installation crews are able to provide complete professional installations around the world. We pride ourselves in being well known for our excellent follow up service and exceeding industry standards for warranty coverage. Stadium & Arena indoor fixed seating options as well as retractable indoor seating options to choose from.

We are a leader in seating supply for Arenas, Performing Arts Centres, Gymnasiums, Auditoriums, Convention centers, Lecture Halls and Multi-Purpose Theatres. Our goal is to supply every customer with a unique solution. From the smaller lecture halls or recreational facilities and School telescopic bleachers all the way to stadium and grandstand seating. No customer is too large or too small. Safety, functionality and affordability are the key objectives.

TERMS & CONDITIONS

Back Orders

Unless notified otherwise, we will automatically back order and ship, as soon as possible, out of stock items.

Credit Cards

Athletica Sport Systems accepts the following credit cards: Visa, MasterCard and American Express. \$3,000 limit. Applicable fees may apply.

Damaged Merchandise

When a shipment is received, please inspect for damage immediately. If there is damage to the package, make notation of same on carrier paperwork before you take possession of the shipment at your premises. Athletica Sport Systems is not responsible for damage or loss in transit. All freight claims must be filed with the delivering carrier. Notification of shortages or damages must be made within five (5) days of delivery. Do not return damaged merchandise without contacting Athletica Sport Systems first.

Disclaimer

Athletica Sport Systems reserves the right to correct any errors in the catalog, remove any items that become unavailable, and to substitute similar items of equal or greater quality if available.

Past Due Payments

If payment is not made when due, interest at the rate of 18% per annum (or the maximum percentage rate allowed by law, whichever is more) will be charged on such past due payments. Purchaser agrees that Athletica Sport Systems may recover all of its attorneys' fees, costs, disbursements, expert costs, and any other related expenses incurred in the event of Purchaser's non-payment.

Pricing

Athletica Sport Systems does not supply a price list for catalog items. This policy allows us to provide customers with the best possible commodity pricing at shipment time. All applicable sales taxes are extra unless noted on quotations.

Return Policy

Prior approval is required on all returns. All returned merchandise must be new and unused, and in salable condition, preferably in the original packaging. Return shipping costs are the responsibility of the buyer. All returns are subject to a minimum 15% restocking and handling fee. Athletica Sport Systems reserves the right to refuse the return of merchandise if our return policy and procedures are not followed. In the case of defective merchandise, contact Athletica Sport Systems to arrange return and/or replacement. Custom ordered/manufactured items shall be approved for manufacture by the buyer before construction and are not returnable.

Returns, Lost Orders, Shortages, Wrong Items

If you have placed an order and have not received it in a reasonable period, or the merchandise received is not correct, please contact us.

Shipping

All shipments, unless specified otherwise, are F.O.B. stock location. Shipping costs are additional unless quoted otherwise. Orders are shipped via LTL transport or Economy Ground Service unless directed otherwise. Expedited freight service such as Overnight and Timekeeper LTL are available upon special request.

Terms

All new accounts will require a completed signed and approved credit application. If approved on credit, payment is due net 30 days.

Warranty

All of our products have a manufacturer warranty unless specified at the time of quoting. The extent and life of warranty varies by product. Full warranty details regarding a product can be obtained by contacting us.
