

FEATURES:

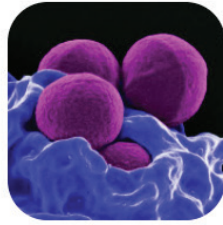

- Kills 99.9%+ of pathogens in seconds
- Light weight handheld device ~1.5 pounds
- Average output power @ 2" across 4" x 4" disinfection area - 12 mW/cm²
- Operates at 270 nm, the peak of the germicidal curve
- External battery pack lasts ~3 hours on a single charge
- 5,000 hour solid state light source, no mercury

SPECIFICATIONS:

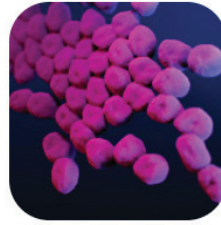

- Distance feedback to aid user in optimal placement
- Continuous system performance monitoring
- Embedded computer sensors for intelligent safety shut-off
- Uniform UVC light across disinfection area
- Ergonomically balanced design
- Visible light indicators of active disinfection

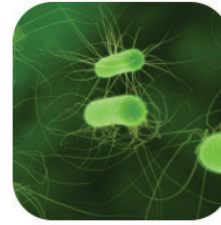

SARS-CoV-2
99.88% IN 1 SECOND

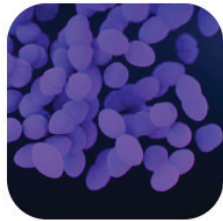

MRSA (Methicillin-Resistant Staphylococcus Aureus)
99.75% IN 1 SECOND

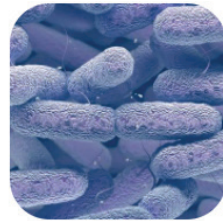

Acinetobacter baumannii
99.93% IN 1 SECOND

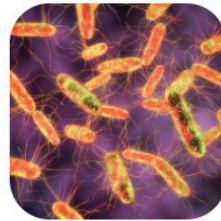

Escherichia coli
99.999% IN 1 SECOND

Enterococci Faecalis
99.96% IN 1 SECOND

Klebsiella pneumoniae
99.64% IN 1 SECOND

Salmonella
99.95% IN 1 SECOND

Pseudomonas aeruginosa
99.9% IN 1 SECOND

NUVAWAVE KIT CONTENTS:

- NuvaWave UVC Handheld Device - Qty. 1
- NuvaWave UVC Face Shields - Qty. 2
- 3-hour rechargeable batteries - Qty. 2
- AC battery charger - Qty. 1
- Utility Belt with Battery Mount & Device Holster - Qty. 1
- Instructions for Use Manual - Qty. 1
