

Built for safety and ease-of-use

Developed in conjunction with the NHL, USA Hockey and sled players, Athletica is proud to introduce the world's first sled player bench.

An easy, interlocking setup that can be installed in minutes and doesn't require much storage space at the rink. The fact that no building renovation is needed means it will be finding its way into many rinks in the near future.

Incredible Strength

- Fully welded steel frame is built in 6" and 7" width
- Formed end channels and angles provide added durability
- All hardware is made from heavy duty zinc plated steel

Added Protection

- Fully welded steel frame is built in 6" and 7" width
- Formed end channels and angles provide added durability
- All hardware is made from heavy duty zinc plated steel
- All hardware is made from heavy duty zinc plated steel
- All hardware is made from heavy duty zinc plated steel

Innovative Design

- Fully welded steel frame is built in 6" and 7" width
- Formed end channels and angles provide added durability
