

PUCK FREEZER

Ready to play when you are

Precision and safety

No matter where you play, your pucks are always ready to go when you get there with the Portable Puck Freezer. For the ultimate in consistently frozen pucks, this compact freezer will hold a stable temperature under most conditions. It runs off standard household voltage or easily connects to the 12V accessory outlet in your car and features a full range digital thermostat that is adjustable from - 8° F to 50° F.

Full Range Thermostat

The portable fridge freezer's thermostat can both freeze and refrigerate your pucks.

LED temperature display with fast cooling feature

'Fast Freeze' mode rapidly cools to - 8° F.

AC and DC Adapter included

Plug the puck freezer into the 12V accessory outlet in your car or any plug in your facility without having to buy extra accessories.

Strong, durable design

Tough, solid outer casing with insulated lid and walls means your pucks will remain cold long after it's been disconnected.

Storage

Large capacity storage area to accommodate all your game pucks.
