

SPORTSTER VERTICAL LIFT GATE

Convenience with
maximum safety

Vertical Lift Gate

Precision and safety

Made entirely of stainless steel components so it will never rust or need painting, the Vertical Lift Gate is a "one-time purchase" designed with every conceivable safety feature built in. Engineered in 3D CAD to allow the smooth operation of moving parts, thereby reducing wear to prevent mechanical failure. Moving parts are concealed within the support towers and replaceable without cutting or welding. All the manufacturing, mounting and electrical, is done in our plant and each unit is shipped "installation ready".

Key features:

- Stainless steel construction
- Commercial grade motor
- All parts are CNC laser cut
- Push button to fully open and close
- Keyed 'lockout' feature to prevent unauthorized use
- Infrared safety beam
